

## CCS Action Network Meeting Request Template

Subject: Meeting Request on CCS impacts and harms

Dear [Representative/Senator's Name]

[As the (title and org if applicable)] I am writing to request a meeting with you and relevant staff during the March Congressional recess, which is taking place March 17-21.

(If part of an organization include details about who you represent and your mission)

We would like to discuss our concerns and impacts of the carbon capture industry on our community and the connection to billions of dollars in wasteful public subsidies that are outlined in [this letter](#) from over 200 organizations across the country.

Insert a brief paragraph or two including details such as:

- Specific local impacts and concerns
- Recent local media stories that highlight these concerns
- Other organizations you expect to be at the meeting

Carbon capture has repeatedly failed as a costly corporate giveaway, enriching the ultra wealthy while trampling on communities. Please let me know who from your office I should connect with to schedule this meeting. You can reach me at (insert phone number) or (email address).

I look forward to hearing from your office soon so we can find a time to discuss these important concerns.

Sincerely,

[Name]

[Organization]
